Subject: Paragraphs about AMD, TRW and Signetics for next Triple Site fact sheet
Attachments: 0995_09K1_Offical Proposed Plan Factsheet May 2018.pdf; Triple Site Fact Sheet_English_April 2016.pdf

Good morning, Mike, Rebecca, and Wes,

While we are in a hiatus from sampling/mitigation as the new Order for the Offsite OU is being prepared, I am looking ahead to the next Triple Site fact sheet. For this next fact sheet, I would like to broaden the language to have a paragraph on each of the source sites. Would you please start thinking about language you would want to have in the fact sheet? I'm thinking a few sentences about the history of each of the sites, recent remedial activities and plans for the next few years.

I've attached the last fact sheet for the site – it's from 2016. I've also attached the Proposed Plan brochure for the Teledyne/Spectra-Physics Sites in Mountain View, so you can get a sense of the type of language we would be looking to use for the site backgrounds.

There's absolutely no hurry, but it would be great to have some draft language from each of your teams by late September or early October. I would then circulate a draft of the fact sheet back to you all for review and comment.

--Melanie
